

Security and Convenience for users of Canon MFPs.

Equitrac Embedded for Canon® MEAP puts convenient and secure release of prints — as well as complete tracking of copies, scans and faxes — at your fingertips, in the touch screen control panel of your MEAP-enabled Canon imageRUNNER® multifunction product (MFP).

Part of the Equitrac Office® and Equitrac Express® solutions, Equitrac Embedded for Canon MEAP takes full advantage of Canon's Multifunctional Embedded Application Platform (MEAP) in MFPs widely deployed in enterprise, general office and education environments. This means now you can enhance document security, protect personal information and provide users the mobility and convenience of Follow-You Printing™ with no terminals to purchase, install or maintain.

New levels of efficiency and control for walkup services.

- Simplify tracking and management of copies, scans and faxes.
- Promote user mobility, convenience and productivity.
- Enhance security of printed documents released on networked Canon MFPs.
- Manage total output volumes and eliminate waste.

Saving time, increasing productivity.

Follow-You Printing™ with Secure Document Release increases mobility and productivity by freeing users to output documents at the Canon MFP of their choice – across servers, departments and even geographic boundaries. Freed from reliance on a single printer, users can output documents when and where they are needed and avoid the inconvenience of printers that are busy or out of service.

For added convenience, network login or ID entry on the device provides users instant authentication to access the full power of the Canon MFP without having to continually re-enter credentials for their allowed copying, scanning, faxing or email services.

Increase security, confidentiality and compliance.

With the Canon MFP control providing access to Follow-You Printing, it's easy to keep confidential materials out of the wrong hands. Jobs can only be printed by the appropriate user when they are physically at the device to release. And by accounting for and reporting all document output activity, Follow-You Printing helps organizations comply with HIPAA, Sarbanes-Oxley and other privacy requirements. Authentication is easily provided through Equitrac's new proximity and magstripe card readers.

Simplify and centralize print management.

Equitrac's Embedded solution simplifies IT with Windows-based automated installation and configuration on the Canon MFP. Standards-based Follow-You Printing is compatible with IPSec encryption and supports alphanumeric login, PIN entry, and magnetic stripe or proximity card authentication. With terminal-based solutions for your non-Canon equipment and a single convenient administrative interface for managing your entire fleet, only Equitrac software brings the security of Follow-You Printing to multi-vendor environments.

"Equitrac software for Canon MFPs simplifies user workflow and eases output cost management."

Equitrac Embedded for Canon® MEAP

Advanced technologies, combined for your benefit.

Equitrac Embedded for Canon MFPs is the result of industry leaders working together to streamline your workflow and help you realize your full cost management potential. Seamlessly integrated with Canon's customizable development platform, Equitrac Embedded for Canon MFPs extends the power of Equitrac solutions to users of Canon MFPs, delivering advantages of convenience, security, productivity and economy in ways that no one can match.

Review documents
Select document to print or delete.

Press to release
Simply press PRINT to output selected documents.

Eliminate waste
Delete unneeded documents before printing.

Print anywhere
Enjoy complete mobility by accessing documents waiting on any print server.

How Follow-You Printing helps you reduce waste and increase productivity.

Reducing print waste on college campuses.

End wasteful unclaimed printing by allowing print jobs to be output only when users are ready to claim them at the printer. With Equitrac software helping to manage 100 Canon printers in student computer labs, one East Coast college reduced campus printing 41 percent in just one semester.

Increasing productivity and convenience in the office.

Employees enjoy the convenience of swiping an ID card to release documents from the printer of their choice. And because Follow-You Printing operates across geographic boundaries, users can output documents in your organization's branch offices, to avoid the risk losing or exposing them while traveling.

Advanced Features

Cost management

- Fully integrated with Equitrac Professional and Equitrac Office cost management solutions and Equitrac Express pay-for print/copy solutions
- Copy, scan and fax tracking captures all document activity
- Eliminates unauthorized printing and the waste of uncollected print jobs
- Optional transaction consolidation

Ease of use

- Simple, familiar, touch screen on Canon device
- Single integrated user experience simplifies workflow, increases user satisfaction
- On-screen QWERTY soft keyboard
- English, French, Italian, German, and Spanish language support

Security

- Follow-You Printing™ for mobile and secure document release
- Documents output only when users are ready to pick them up from the MFP
- Network login or PIN authentication and access control
- USB card reader support
- Session limit enforcement

IT simplification

- Automated installation
- No terminals for IT to install or support
- No additional IP addresses or network drops
- Centralizes device management and control
- Reduces printer-related help desk calls

- Offline support allows limited MFP use in case of network outage

Supported Canon devices

- imageRUNNER 4570/3570/2870/2270
- imageRUNNER 105+/9070//85+/8070
