

Convenience, Simplicity and Security for Users of Xerox MFPs.

Equitrac Embedded for Xerox Extensible Interface Platform (Equitrac Embedded for Xerox EIP) increases printing convenience, ease of use and output security for users of Xerox WorkCentre® multifunction products.

Part of the Equitrac Office and Equitrac Express solutions, Equitrac Embedded for Xerox EIP takes full advantage of the Xerox Extensible Interface Platform running on systems widely deployed in education and general office environments. Besides allowing users to release printed documents at the MFP of their choice, Equitrac Embedded for Xerox EIP provides access to award-winning print management and cost-control solutions through the Xerox MFP's touch screen control panel. So now you can enjoy simplified tracking of copies, scans and faxes, with no terminals to purchase, install or maintain.

Benefits of Equitrac Office and Equitrac Express extended to walkup services.

- Promote user mobility, convenience and productivity.
- Print documents securely to networked Xerox WorkCentre MFPs.
- Simplify tracking and management of prints, copies, scans and faxes.
- Manage total output volumes and eliminate waste.

Saving time, increasing productivity, enhancing security.

Equitrac Embedded for Xerox EIP is fully compatible with Xerox Secure Access Unified ID System card-based user authentication on the MFP, providing users instant access to the full power of the Xerox system without having to continually re-enter credentials for their allowed copying, scanning, network faxing or email services.

Follow-You Printing™ increases mobility and productivity by freeing users to output documents at the MFP of their choice – across servers, departments and even geographic boundaries. Equitrac Solutions protect confidential information by assuring jobs are printed only by the appropriate user when they are physically at the MFP.

Complete and accurate cost management.

With Equitrac Embedded for Xerox EIP, you can input accounting codes directly at the front panel while the Equitrac solution captures all MFP job attributes, simplifying and automating the application of variable rates based on document features. Paper size and use of color or black and white – for both copies and prints – can be detected on a page-by-page basis for accurate usage reporting and allocation to correct account codes for individuals, departments or other funding sources.

"Equitrac software in the Xerox EIP-enabled WorkCentre systems improves the user experience and minimizes time spent at the device."

Equitrac Embedded for Xerox Extensible Interface Platform

Advanced technologies, combined for your benefit.

Equitrac Embedded for Xerox EIP represents the partnership of industry leaders working together to streamline your workflow and help you realize your full cost management potential. Seamlessly integrated with the versatile Xerox EIP development platform, Equitrac Embedded for Xerox EIP makes the most of the rich graphical user interface on the Xerox device to provide powerful and intuitive capabilities to end users. Your Xerox multifunction product becomes the hub of an adaptive infrastructure for secure and mobile print release, accurate cost management, and broad-based device management throughout your organization. Extending the power of Equitrac Office and Equitrac Express solutions to Xerox MFPs, Equitrac Embedded software delivers advantages of convenience, productivity and economy in ways that no one can match.

Review documents
Select document to print or delete.

Eliminate waste
Delete unneeded documents before printing.

Press to release
Simply press PRINT to output selected documents.

Print anywhere
Enjoy complete mobility by accessing documents waiting on any print server.

Equitrac Embedded solutions for Xerox EIP multifunction products in the office, enterprise and educational environments are equipped with a Device Control Engine that communicates the collection of copy, scan and fax data directly accessible through the front panel of Xerox EIP-enabled systems. With no terminal required, the Equitrac Embedded solution reduces your equipment costs while speeding your return on investment.

Advanced Features

Cost management

- Fully integrated with Equitrac Office cost management solutions and Equitrac Express pay-for print/copy solutions
- Copy, scan and network fax tracking captures all document activity
- Eliminates unauthorized printing and the waste of uncollected print jobs

Ease of use

- Simple, familiar, touch screen on Xerox EIP-enabled MFP
- Single integrated user experience simplifies workflow, increases user satisfaction

- Supports Card based authentication with Xerox Secure Access
- On-screen QWERTY soft keyboard
- Upload of email addresses to devices with JBA FX extensions

Security

- Follow-You Printing™ for mobile and secure document release
- Documents output only when users are ready to pick them up from the MFP
- Network login or PIN authentication and access control

IT simplification

- No terminals for IT to install or support
- No additional IP addresses or network drops
- Centralizes device management and control
- Reduces printer-related help desk calls

Supported Xerox devices

- WorkCentre Pro 232, 238, 245, 255, 265, 275
- WorkCentre 5632, 5638, 5645, 5655, 5665, 5675
- WorkCentre 7328, 7335, 7345
- WorkCentre 7655, 7665, 7675
- All Xerox Secure Access options
