

# HP PrinterOn Enterprise

## Secure enterprise cloud printing solution

### Make printing easier, for everyone

HP PrinterOn Enterprise is the industry-leading secure printing solution that enables printing from any laptop, desktop, or mobile device, to any printer, no matter the networks in between. HP PrinterOn Enterprise is a centrally managed solution and is recommended for larger organizations, or those with complex workflow requirements. With HP PrinterOn Enterprise, you get a combined solution that enables secure print, tracking and management of all print workflows—whether desktop or mobile.

If you are thinking about moving your infrastructure to the cloud, HP PrinterOn Enterprise has the key infrastructure in place so that you can run your print services in the cloud right now, or stay on-premise until you decide to go to the cloud in the future. The choice is yours.

#### HP PrinterOn Enterprise

- works with any device, any network, whether in the cloud or on-premise
- is a secure, reliable, and proven print solution
- is modular, scalable, and flexible so that it grows with your business
- offers a consistent print experience whether in or out of the office
- supports cloud-based SSO and OpenID Connect-compatible identity management solutions, including Azure AD

HP PrinterOn Enterprise can be deployed and managed in any cloud or on-premise, providing the flexibility you need and complete control over your print service wherever it resides.

### Key infrastructure for a complete, secure printing solution

With HP PrinterOn Enterprise, you get access to all the features required for a complete, secure cloud printing solution—or on-premise, if desired. It is the only solution that offers this level of flexibility and the features required to solve virtually any print problem, no matter the workflow, network, device, or industry.

#### Mobile Printing

HP PrinterOn iOS and Android™ printing apps with MDM versions for BlackBerry (Good), AirWatch, MobileIron, Citrix and Intune

#### Pull Printing

HP PrinterOn Secure Release Anywhere™ provides pull print, tracking, and management of mobile and desktop print workflows

#### Remote Printing

Securely connect to printers on remote networks no matter where they are located, without the use of VPN

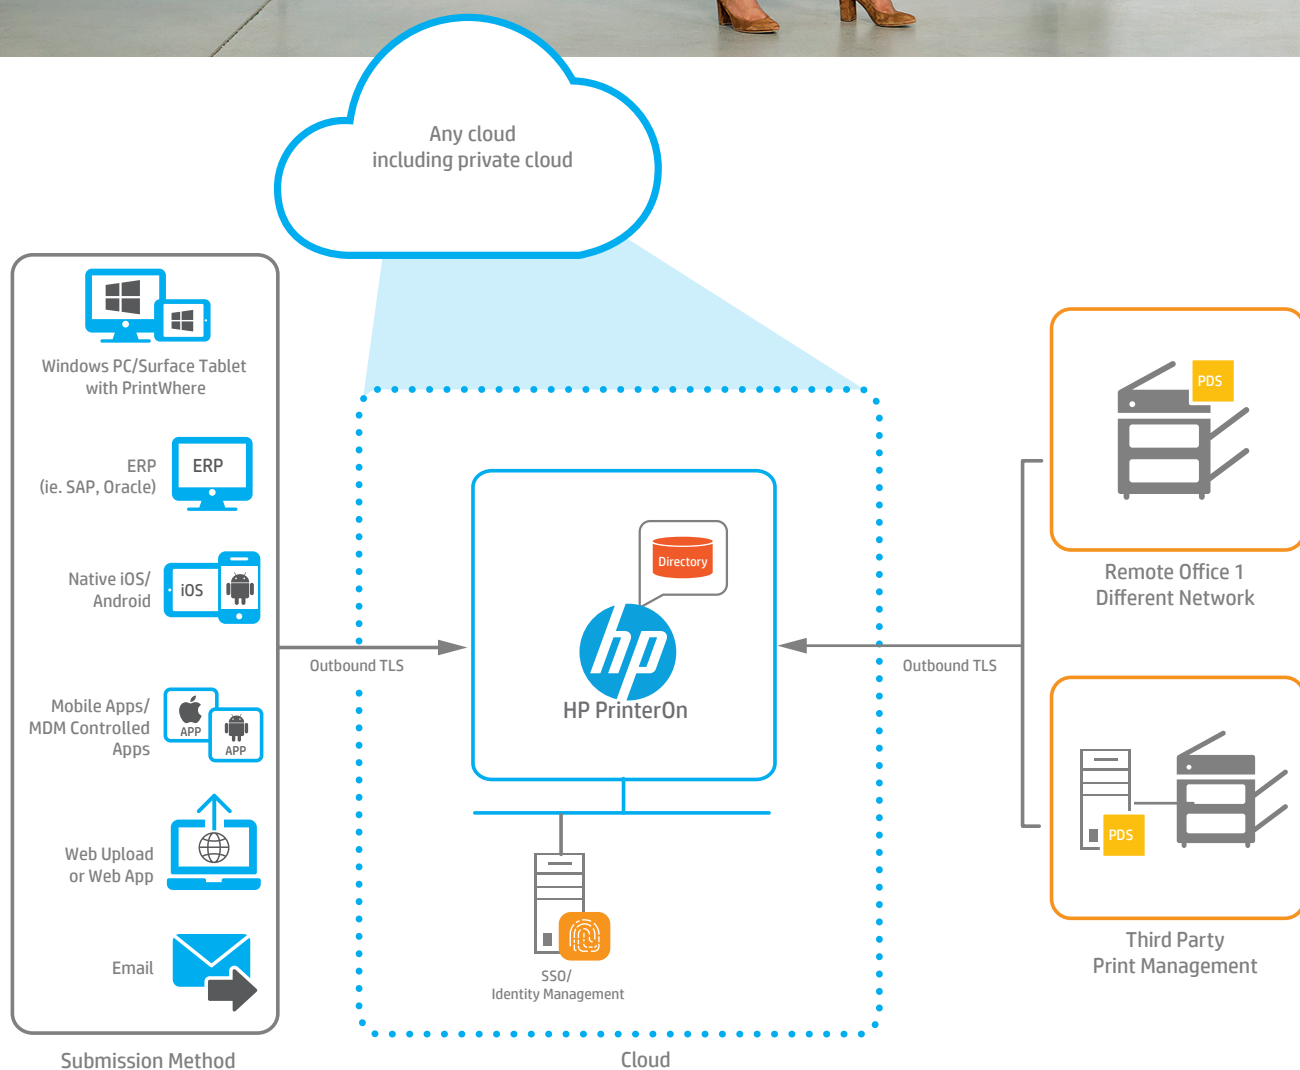

#### Desktop Printing with PrintWhere®

PrintWhere® provides native Windows® printing and reporting for any desktop/laptop or Surface tablet

# HP PrinterOn Enterprise in AWS Third-Party

True Cloud Printing is the ability to run enterprise-grade secure print services from a cloud platform without any traditional on-premise print infrastructure dependencies.

## Features that support your business today, whether on-premise or in the cloud

### SSO/IDM

Single Sign On and Identity Management enables authentication securely across networks without sharing user credentials

### OpenID Connect Support

HP PrinterOn Enterprise supports any OpenID Connect-compatible IDM solution including Azure AD, Okta, Centrify, Ping Identity and OneLogin

### Microsoft Azure AD Support

HP PrinterOn extended support improves workflows and makes configuration easier

### MDM/MAM Integration

HP PrinterOn Enterprise supports the most popular MDM solutions such as Citrix Xen Mobile, AirWatch, BlackBerry (Good), MobileIron and Intune with specific mobile apps for each

### HP Access Control Support

All HP PrinterOn print workflows can be enabled for the HP Access Control server providing secure card release, pull printing and job tracking

### Smart Print Path

The smart print path feature of PrintWhere automatically picks the best print path (shortest, fastest, least costly) and compresses files for up to 75% bandwidth savings and faster print

### IDM support for Mobile Apps

HP PrinterOn mobile apps support third-party IDM and form-based authentication services

## Your print challenges are our business

HP PrinterOn Enterprise solves the print challenges that businesses encounter every day. But it doesn't stop there. HP PrinterOn Enterprise is always ready to go wherever your corporate roadmap takes you. Whether you expand your business globally, complete an acquisition or move to the cloud, HP PrinterOn Enterprise is always ready to move with you.

Print Challenge	Solution
Do I currently have business apps in a third-party cloud that need access to print?	HP PrinterOn Enterprise deployed alongside your business applications in a third-party cloud will provide access to all of your printers on the local trusted network as well as "off network" remote printers.
Do I need to quickly enable print at new office locations without the hassle and high cost of VPN?	With remote printing capability, a print network can be set up in hours, not days. It can reduce the time and resources required to provide print at new locations and connects all of your networks for secure print across an entire organization.
Do I need to print shipping documents, medical results or purchase orders to third-party locations?	With HP PrinterOn Enterprise, documents can be printed across disparate networks to another supplier or manufacturer without having a direct network connection in place, which reduces implementation time and saves money.
Do I need employees' home office printing to be secure and trackable?	HP PrinterOn Enterprise's ability to connect a mobile device or laptop to a secure printer, no matter the networks in between, provides this flexibility. Printing can be done from a laptop, PC, or mobile device, and all documents submitted are kept secure and tracked, even from a home office.

## HP PrinterOn Enterprise Managed Cloud

For customers who want the benefits of HP PrinterOn Enterprise, but don't want to oversee the solution themselves, HP PrinterOn Enterprise Managed Cloud is a subscription service whereby HP will manage deployment of the HP PrinterOn Enterprise solution on your behalf, in the PrinterOn cloud. Contact your HP representative for more details.
