

# How to Install Realogy Mobile Printers - Denver

---

## 1. How to Install Realogy Mobile Printers

The Realogy Mobile Print lets you print from any smartphone, tablet or laptop to an enabled printer at your location

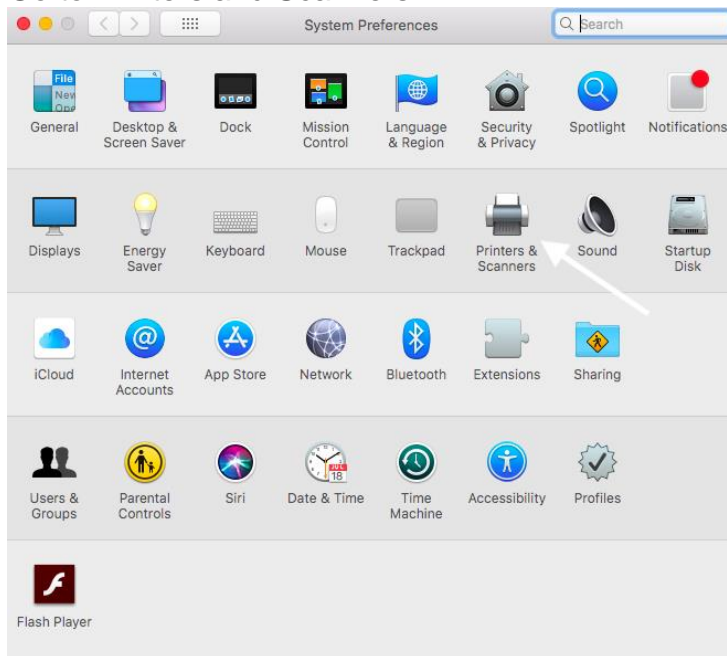

Double Click on the attached “Realogy Profile for Denver Printers file included in the email

>click open > click continue (to install) > (are you sure) click install

Go to System Preferences

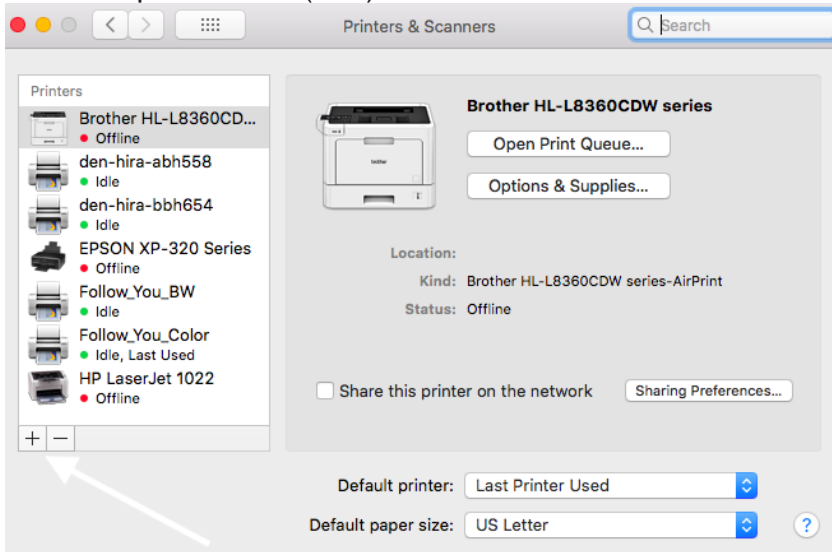

Go to Printers and Scanners

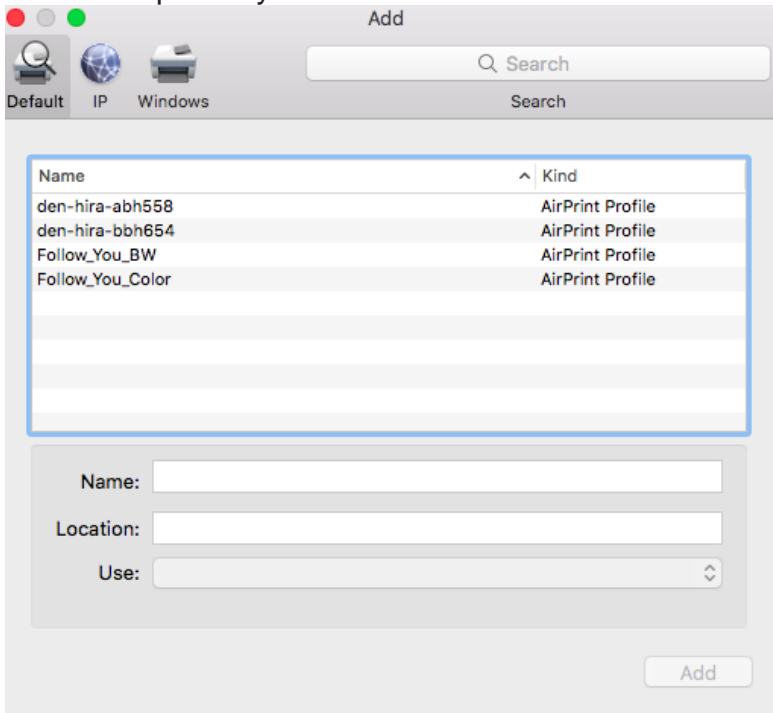

>open printers & scanners

Click the plus button (add) on the bottom left corner

Select the printer you would like to add

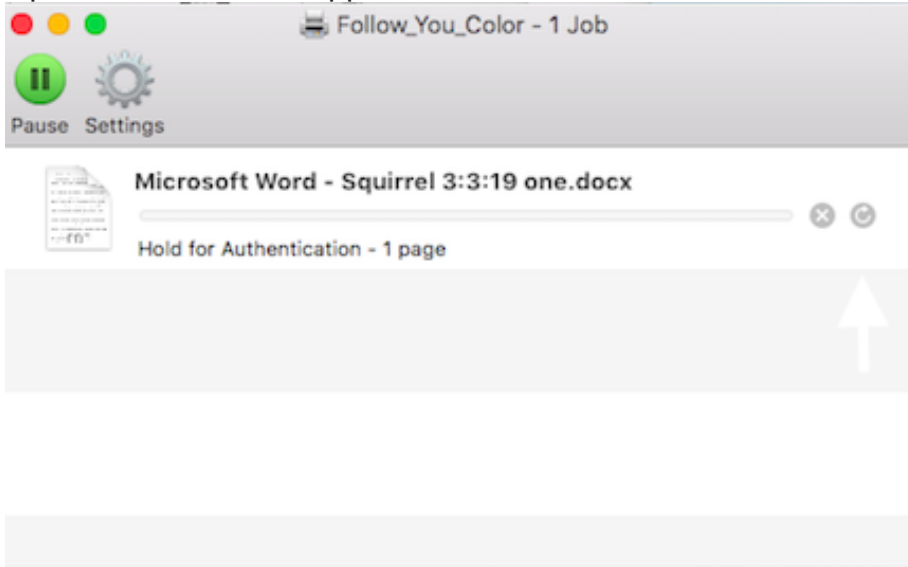

>Click Add

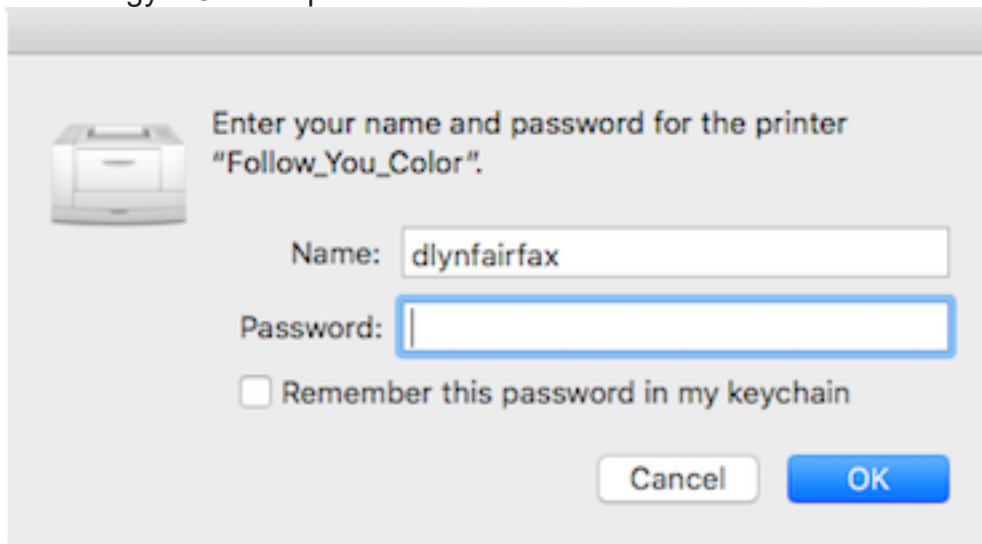

Printer will be installed.  
(Cont.)

The first time you print you will need to authenticate to Realogy  
Open the Printer that appears in the bottom tool bar>click the refresh button

Authentication is only required 1 time, unless you change your password or Realogy's Okta requires it.

Enter your name and password for the printer  
"Follow\_You\_Color".

Name:

Password:

Remember this password in my keychain

Cancel OK

You are ready to print.
