

REALOGY

iPhone/iPad Printing

Instructional Summary- iPhone/iPad Printing

This document will support you in setting up the iPhone App, creating a User account on the app, and finding and selecting a printer by scanning a QR Code, and saving a printer so you will be ready to print

THIS IS A ONE TIME INSTALLATION FOR EACH PRINTER. ONCE COMPLETE, MOBILE PRINTING IS SEAMLESS.

System Requirements

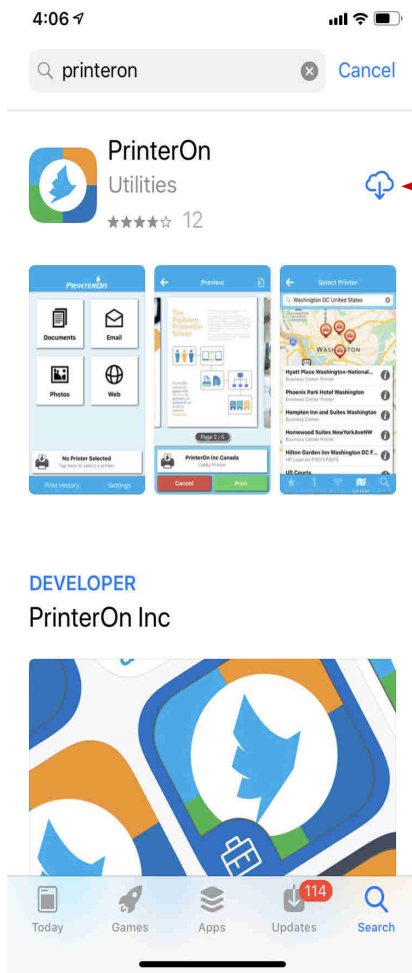

iOS 9.0 or later

Support

If you have an urgent matter, please contact the Realogy help desk:
877-NRT-HELP (877-678-4357)

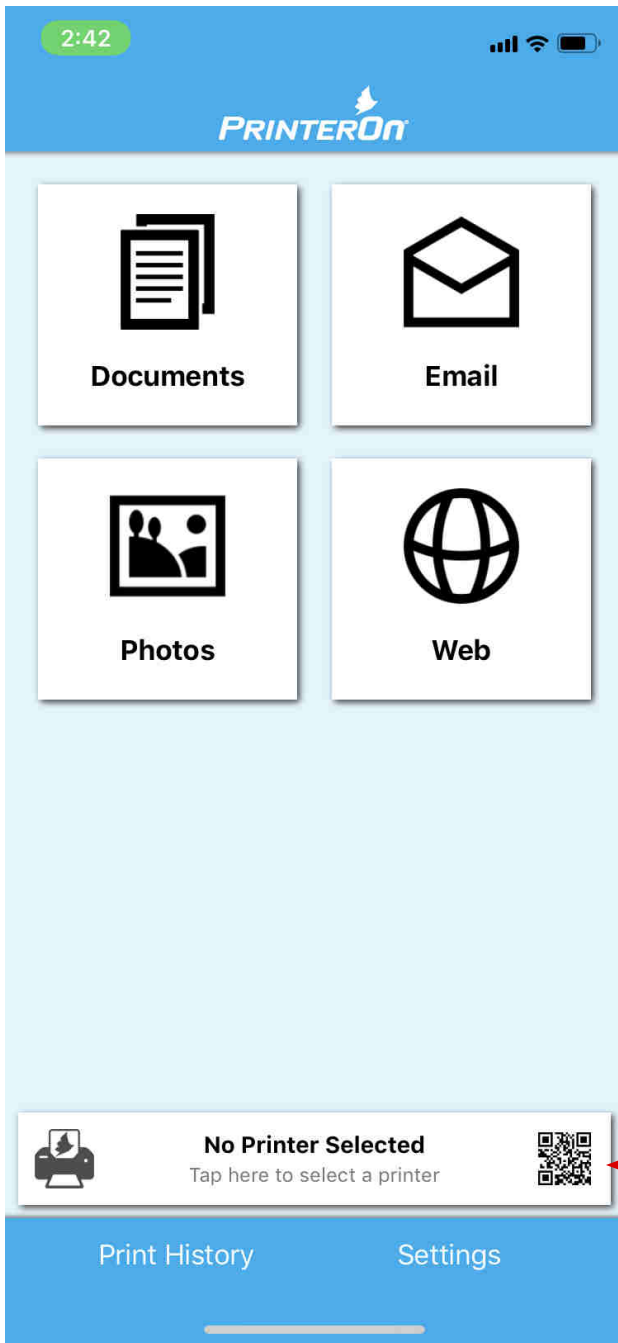

iPhone/iPad Printing

At your One Stop Mobile Print site Select iPhone/iPad Printing Select "Download PrinterOn App"

Or go to the App Store>Search for PrinterOn>Download the PrinterOn App (Utilities) by clicking the cloud with the down arrow

Open the app by clicking "OPEN" or open the app from your home screen

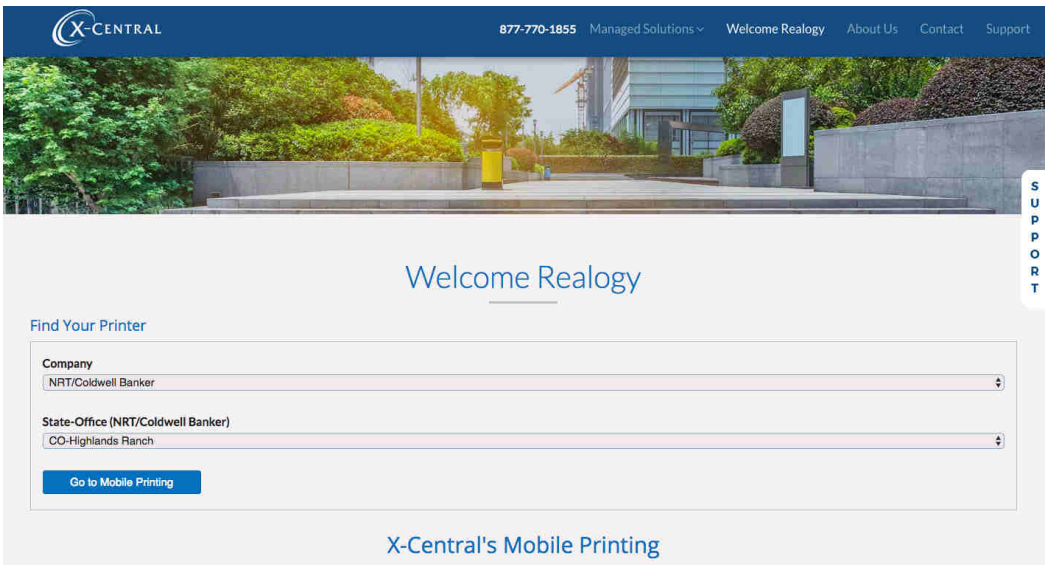

Select "No Printer Selected"

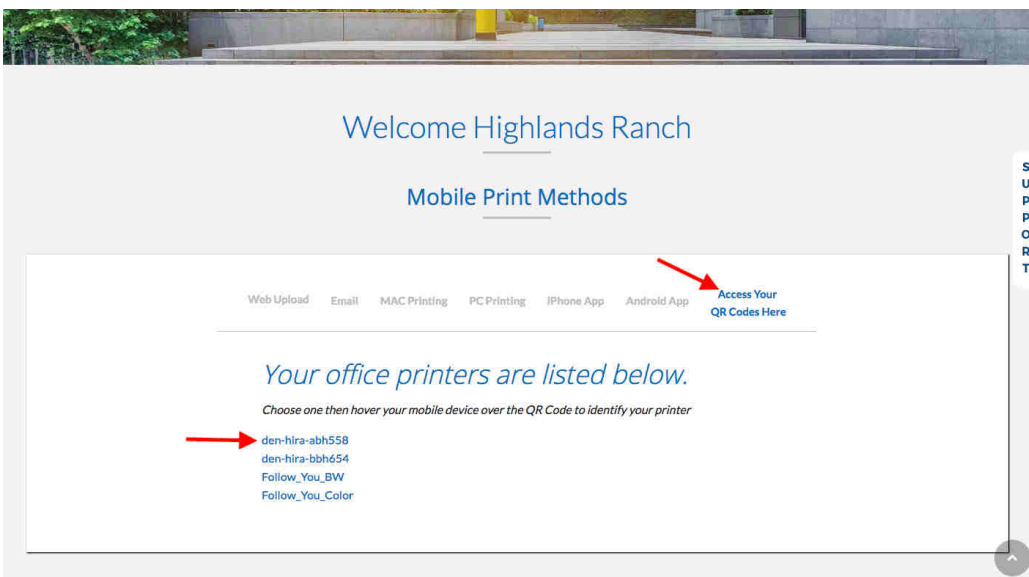

Select the QR Code in the corner

PrinterOn would like to access camera - Select "OK"

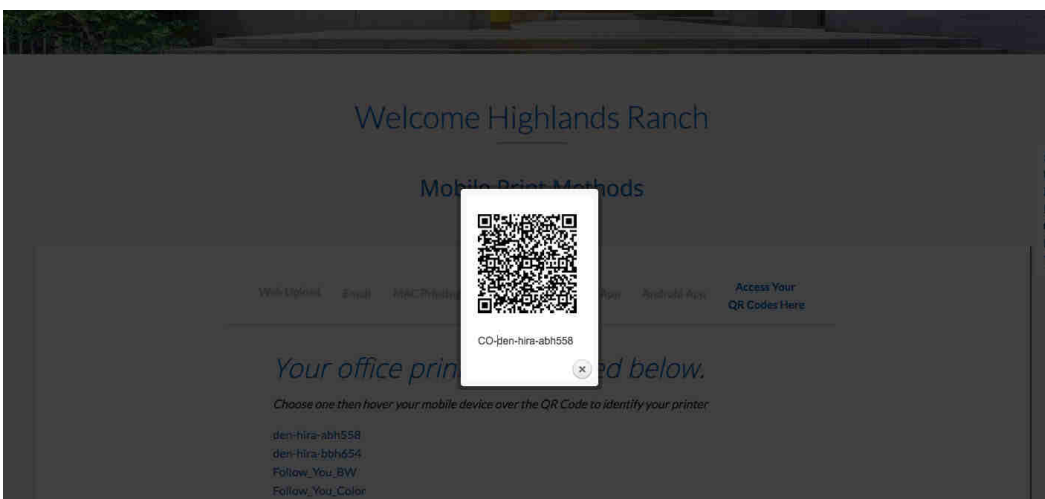

To access your QR Codes return to your One Stop Mobile Print site

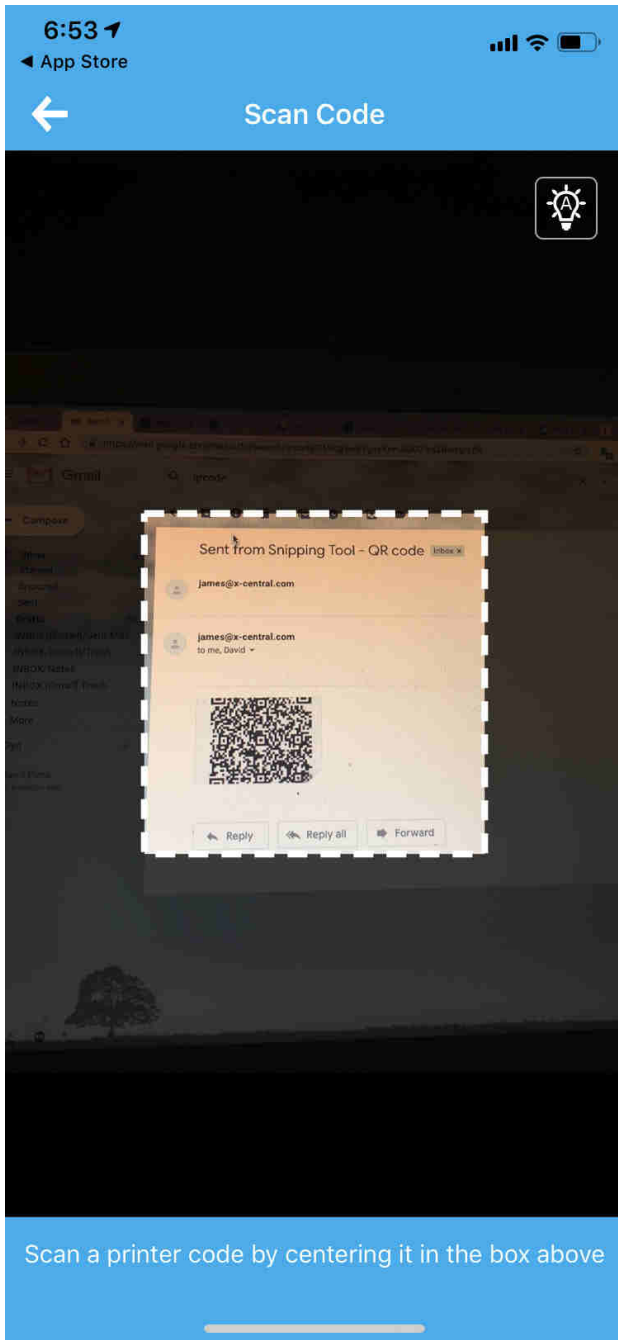

Select Company>State>Office

Select printer

Scan the QR Code for your Printer

Scan your printer QR Code here!

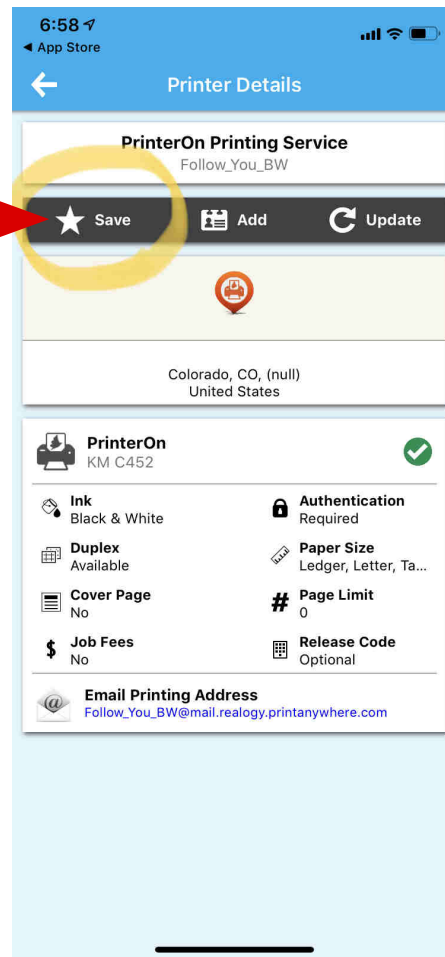

Click "Add Account" – this will allow you to set your user account

Type in your user name and password

Click the check mark to finish adding user account

SAVE YOUR FAVORITE PRINTERS

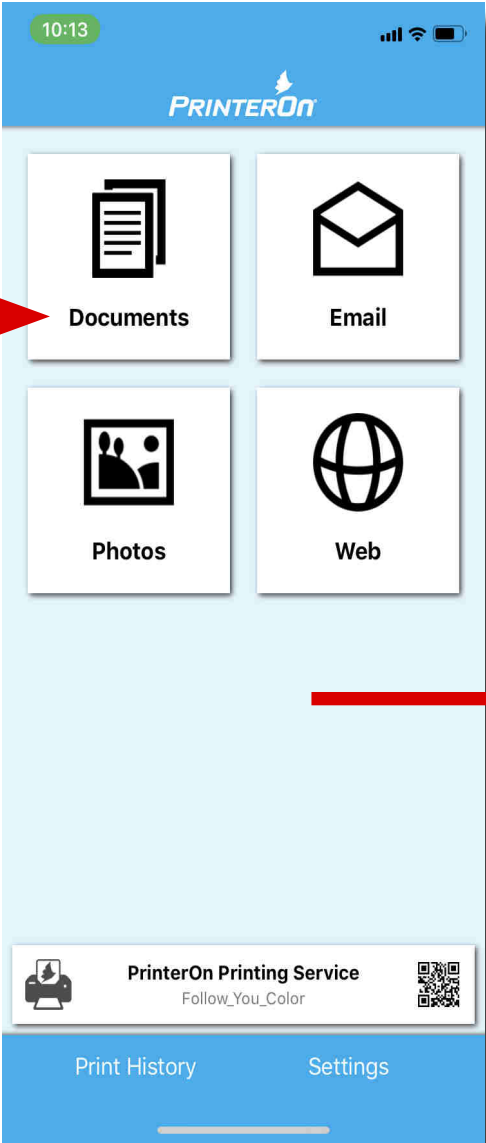

Select the “i” to the right of the printer name

Click the star “save” button. This printer will be saved and show up immediately for future mobile printing.

You are now ready to Print!

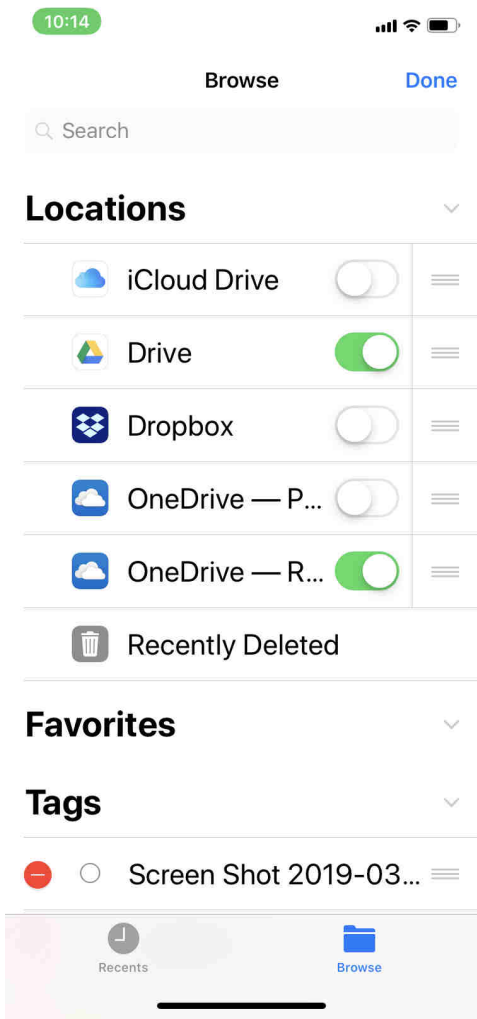

Add applications to MobilePrinting

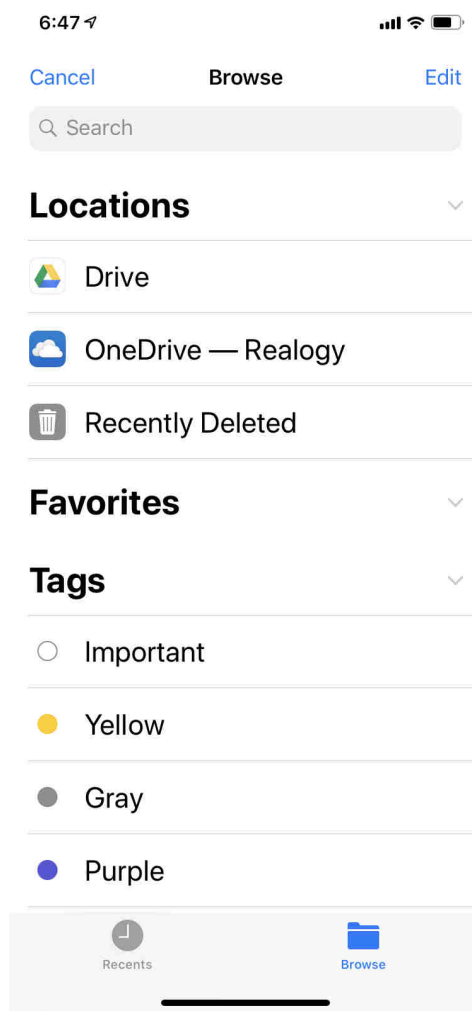

Click Documents>

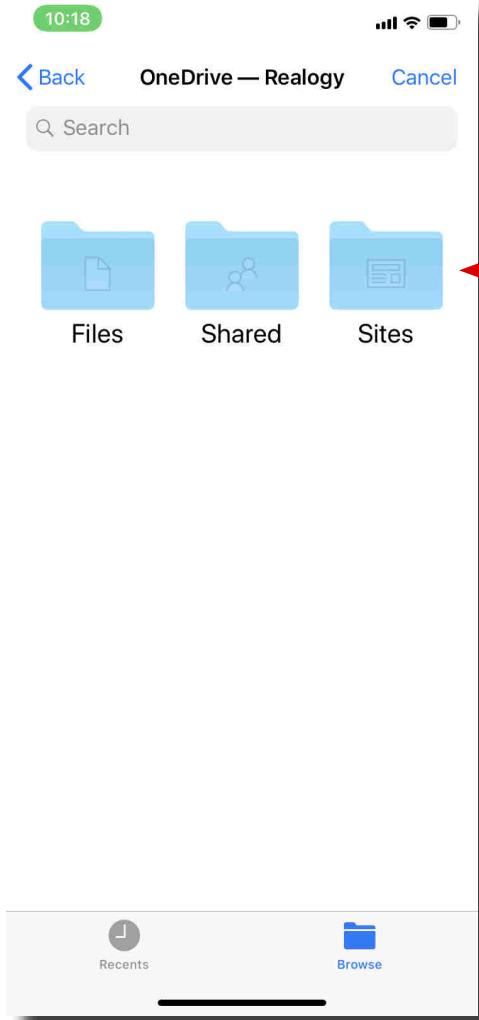

Click Locations>

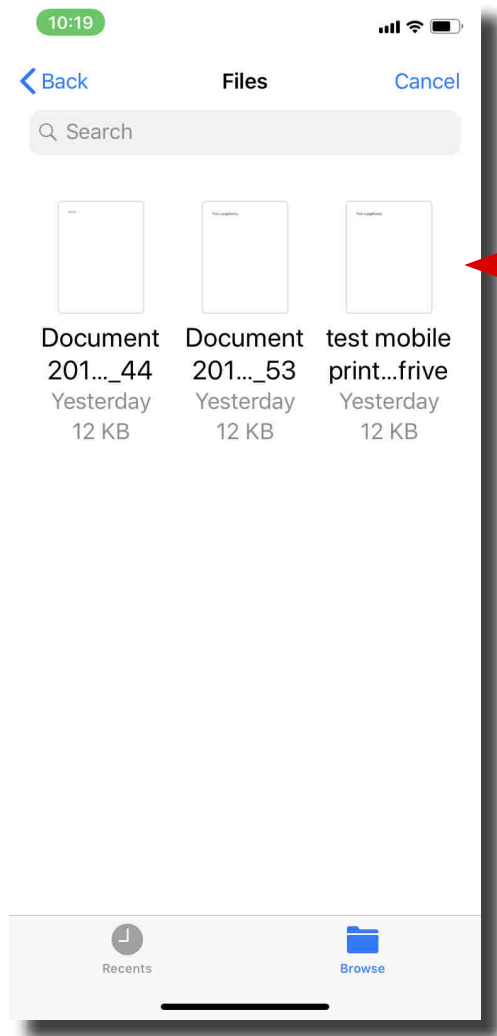

Toggle on Realogy One Drive and others you would like to browse when selecting documents>click done

Click the area you would like to browse

Choose folder

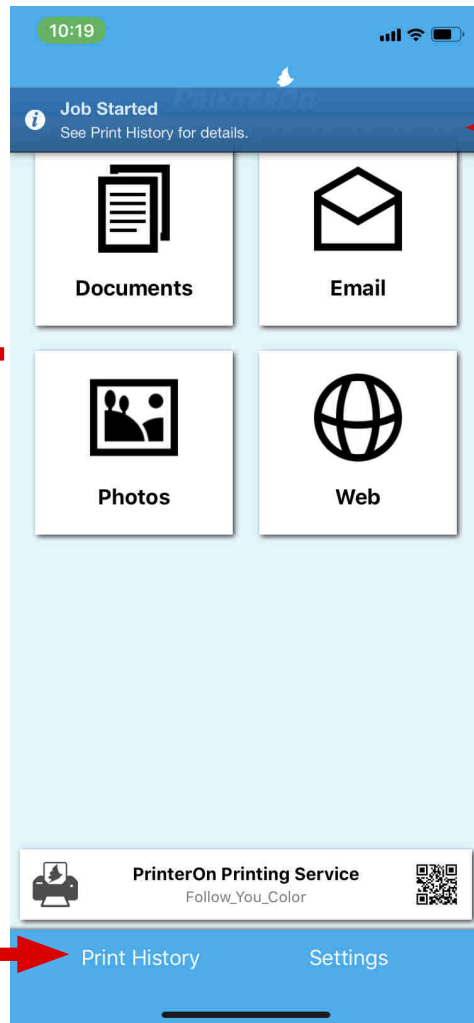

Choose document you would like to print

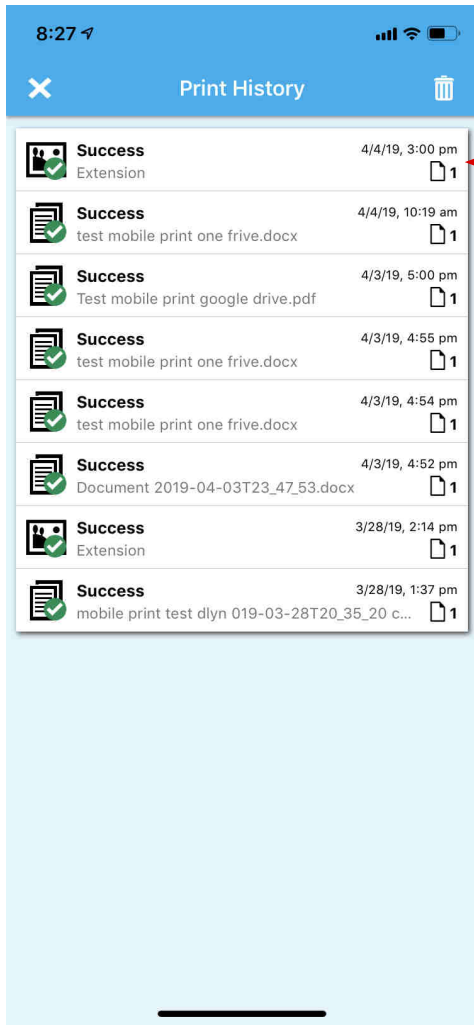

Click Print

Job Started
Job Success

Optional - click Print History to see jobs completed

Print History

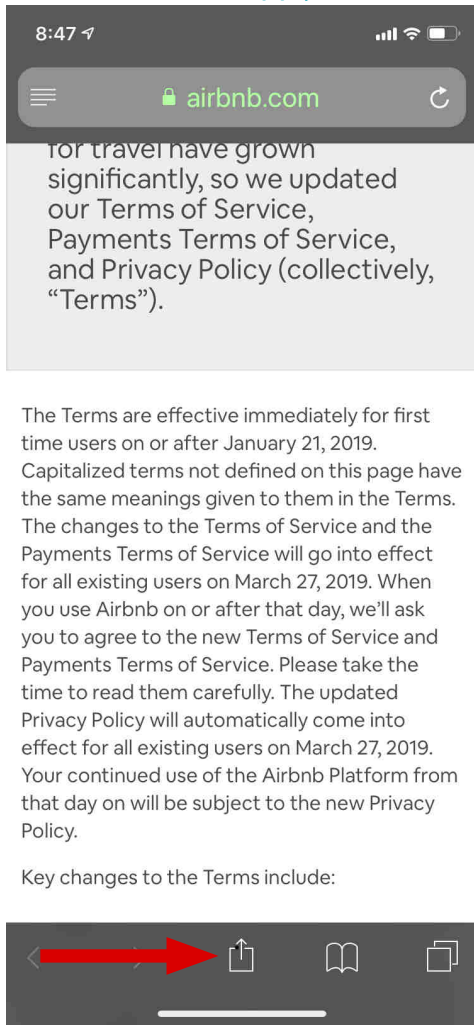

Choose the print job you would like more details on.

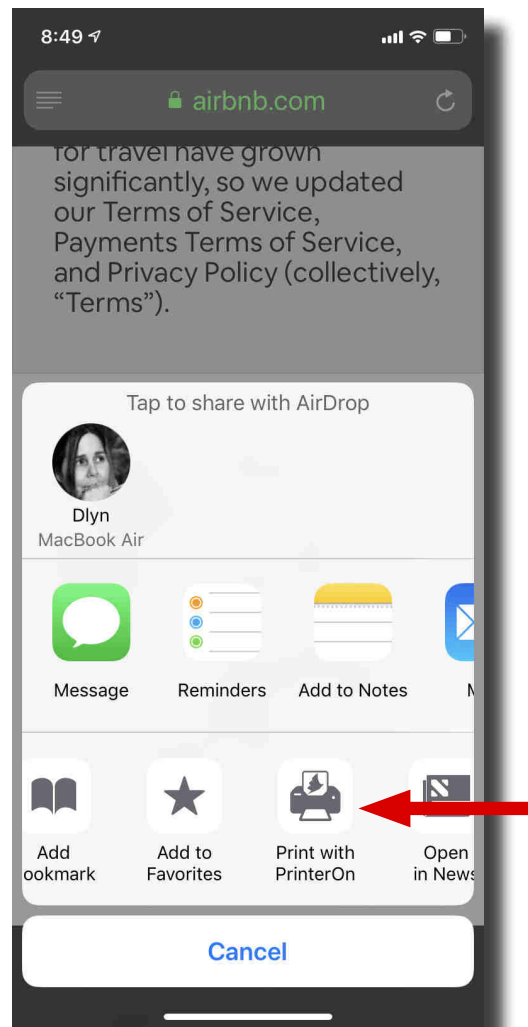

You do not need to use a release code at this time - your job has released to the printer.

Using PrinterOn App ShareSheet

From inside an App you can check your ability to print

In the app choose the send button. Depending on the App you may need to choose 'Share' 'Open With,' or 'Send To'

Swipe bottom row until you find Print with PrinterOn click
PrinterOn app will open and render document > click print
